

GERMANY WILL NOT SIGN PEACE TREATY

HOMESIDE IN NEED OF FIRE PROTECTION

Home of Mrs. B. D. Fraser Completely Destroyed Last Evening.

VOLUNTEERS BUSY

Save Adjacent Buildings, But the Appliances Are Inadequate.

A serious fire loss occurred last night when the home of Mrs. B. D. Fraser, at Rosedale, in Homeside district, Barton township, was completely destroyed. The fire started about 10 o'clock in the evening, and was first noticed by the small son of Mrs. Fraser, who was at his uncle's home across the way.

When notified the flames had a good start on the roof. It is supposed to have been caused by a defective chimney pipe in the attic.

Neighbors immediately responded to the cries for help and tried to contain the fire by salvaging the contents, which was accomplished with the exception of about \$50 worth of furniture.

The Homeside fire brigade responded to the alarm, but arrived too late to do anything but protect adjacent buildings. As it respects many thousands of dollars' worth of property was saved.

Five children and two women were the occupants of the house at the time. Fortunately the hour was early and none of the children had been put to bed. Mrs. Fraser's loss could not be ascertained as she was unaware of the existence of an insurance policy at the time. The house was the property of the late R. D. Fraser, who died of "flu" last year.

Much concern was occasioned over the inadequate fire protection in Homeside. The new apparatus was installed this fall and it is hoped that it will be a splendid fire-fighting force. It has only been equipped with a small, hand-drawn chemical tank and a few less extinguishers. The equipment is kept in as good a shape as possible, but the area to cover is so great that buildings on the outskirts are practically unprotected. This is the second serious fire to occur in the same locality within four months.

OUT OF DANGER

Lowery is Fine; Berry Little Improved.

It was reported from the General Hospital this morning that the condition of the two patients was such as to warrant the removal of Lowery from the hospital. He is now in the home of his mother, where he is being nursed by his wife. Berry is still in the hospital, but his condition is improving.

U. S. SENATE'S COURSE STIFFENS THE GERMANS

Complete Transformation of Feeling Since Refusal to Ratify

And Now They Refuse to sign the Protocol

(A. P. Special Cable.)

Paris, Dec. 3.—Germany has decided not to sign the protocol presented her by the Allies as a condition for putting the peace treaty into effect, the Peace Conference has been notified.

It was learned to-day that Baron Kurt von Lersner, head of the German delegation here, called on Secretary Dufaste, of the Conference, on Monday, and told him that Germany had made such a decision.

This attitude is taken as confirming the reports of a sharp reaction in Germany within the last fortnight. Trained observers of German developments have expressed to members of the Peace Conference the view that there has been a complete transformation of the situation in Germany, brought about, in their opinion, by the failure of the United States Senate to ratify the peace treaty.

These observers declare that while the vast majority of the Germans before the Senate's adjournment, desired the peace treaty ratified as soon as possible, they are now supporting the Government's attitude in resisting the demands of the Allies for indemnity for the sinking of the German fleet at Scapa Flow, recomposed for which was provided for in the protocol. The question upon which the Allies' representatives here, however, appear most sensitive is the inclusion upon the trial of German officers accused of the commission of crimes in France and Belgium.

Thus far, it is stated, no indications have reached Paris of any disposition on the part of the Germans to modify their attitude.

The Supreme Council to-day addressed a note to Germany protesting against the increase of Germany's armaments contrary to the provisions of the peace treaty.

HOW BOOZE WAS DESTROYED WHEN ZION CITY WENT DRY.

Thousands of bottles of 2.75 per cent. beer were destroyed at Zion City, Ill., recently, by order of the U. S. Federal authorities. The authorities are here shown pouring the contents of the bottles into a specially constructed runway leading into the river. The bottles were saved and were sold for \$3.000.

WIFE OF THE MURDERER IS HELD BY THE POLICE

Mrs. Kowalski Accused of Having Threatened Governor Ogilvie.

Two Men Who Were With Her Are Also Now In Custody.

Alma (Katie) Kowalski, 37, Sherbourne street, was arrested last night, in company with two men, by Detectives Crocker and Campbell, charged with threatening to shoot the governor of the local jail. Alma is the wife of the man who brutally attacked the four had murdered two men at the jail on Saturday last. The two men who were arrested at the same time are also in custody. They are charged with being accessories to the murder.

SPECIAL MEETINGS

Series Opened in Park Baptist Church.

The attendance at the Park Baptist Church last evening at the opening meeting of a series of meetings was encouraging. The singing under the direction of the choir leader and the simple hymns sung by Mr. Boeherer were well received. The two directors, few fitting words introduced the speaker, Rev. I. H. Dean, Toronto, well known in Hamilton. He is a clear exponent of Bible truths, as was shown last evening in his exposition of the truth contained in the book of Hebrews. The meetings will be continued for several days, afternoon and evening, and will doubtless grow in interest, as Rev. Mr. Dean is a clear and able speaker.

NEW WORK PASSED

Engineer's Department Has
Quite A Bit Ahead
Yet.

When consideration was given the application of L. M. Glazier by the Works Committee last night to install a gasoline pump 1. east of 187 King street west, Ald. Atchison and O'Hell moved that the application be granted, despite the fact that the special committee recommended against the matter in view of the fact that hard and fast rules were laid down some time ago that the installation of any additional gasoline pumps on King or James streets be disallowed. The motion was approved, and similar action was taken with the application of the Riverside Tire Corporation for an air service stand in front of the premises at 105 King street east.

Ald. Davis likewise saw action to a farce, and said the committee might as well grant all the similar applications that are received, as it was obvious that there was no use in laying down rules and restrictions when they were not observed.

An application was received from eight residents on Benson avenue asking that the six-inch main be extended from 305 feet north of McNally boulevard to the main on the Beach road at an estimated cost of \$1,250. These property owners paid water rates for two years in the belief that a water main was laid. Recently they learned that there was no main.

The committee felt that the fault in this matter rested with the assessment department, but as the works department had received the revenue and the city it was stated that the water main could be extended far enough to accommodate these property owners. A sub-committee was named.

Atchison, Burton and Davis were appointed to go into the matter. A petition was received for the installation of a six-inch water main on Central avenue, and on Bonhays avenue from Central avenue to the H. H. H. at an estimated cost of \$1,250. As the estimated revenue per annum amounted to only \$197, the committee deferred action.

The city clerk advised that he had received a petition, officially signed, requesting the construction of a sewer on Cavell avenue, from the present trench to a point 50 feet southerly. The city engineer said one property owner was trying to obstruct the sewer under the compulsory plan.

The Man In Overalls

You can't expect me to keep telling you to buy your Christmas presents now. I have my own buying to attend to.

St. Andrew had a great time at the annual celebration last night. His disciples were a 'right' for they could say that "It was a rich brim moon-licht night."

It's only pride that keeps the Mayor from asking me for my vote and influence, especially the influence.

That money mountain by-law looks pretty good to me. If I vote for it I will vote by ballot. It's safest.

The skirt of the bagpipes and the taste of the bagpipes, without the happy, made them a happy.

The vomitings of those smoke stacks again polluted the heavens yesterday. I think I will have to speak to the Magistrate about it.

The kiddies would have a fine time making mud pie now.

The stone pile flag pole has a kink in it now.

That reminds me that I shall have to have my snow shovel sharpened.

"We won't go home till morning" was the song and resolve of the St. Andrew's celebrators.

I hereby announce that I am concerned that I refuse to go to 1920 calendars as Christmas pie.

After Saturday's blow, the umbrella repairer must be kept busy.

It still looks like a cap of tea or coffee for your New Year's callers.

How do you like being statted in a radical car over night?

There must have been some two hundred guests at the St. Andrew's dinner. A hot Scotch night.

I will be glad when the automobiles are put in the stable for the winter.

Have you got an inside job yet?

It will be noticed that Sir Alan has not yet begun active operations on that radial road. How long are we to wait upon him?

Hard Murray's annual effusion added to the merriment of the occasion, and was needed.

NAVY LEAGUE

Help Britain Maintain Her
Supremacy.

Secretary Perry, of the Hamilton branch of the Navy League of Canada, has sent out a call for the annual contributions to the league. His letter to the citizens is a ringing appeal.

His appeal, on behalf of the league, is a ringing appeal. He says, on behalf of the league:

"Our supremacy of the sea made possible the winning of the war, but we are supreme now. Our neighbors to the south have been thinking of us as a great nation."

He says, on behalf of the league: "Our supremacy of the sea made possible the winning of the war, but we are supreme now. Our neighbors to the south have been thinking of us as a great nation."

He says, on behalf of the league: "Our supremacy of the sea made possible the winning of the war, but we are supreme now. Our neighbors to the south have been thinking of us as a great nation."

POLICE TOLD TO HOLD POSTS DURING STRIKE

Winnipeg Strikers Did Not
Want Martial Law, Wit-
ness Said.

RADICAL WEST

Labor Discussions at Big
Meetings Inquired
About.

Winnipeg, Dec. 2.—At the continuation of the trial of R. B. Russell, accused of seditious conspiracy, W. Perry, a former member of the Trades and Labor Council, gave evidence as to the stand all the afternoon, and testified that while the strike was called by the general council, the strikers would stand by their own strike and would not have any open-door meetings.

The first evening Mrs. Alf seemed very pleased that her husband got on so well with her friend, but the second night she had grown tired of smiling and on the third night she looked black.

The visitor said it was hot. Alf turned without a word, cannoned into his wife, pretending not to be listening and dashed indoors.

The next morning Mrs. Alf's friend had returned to her home in the country and Alf and his wife had paid four hundred and drinking, conversation.

"You got rid of her, then?" Alf suggested.

"I didn't," said Alf, "but the missus did. I wanted her to stop. If you want to kill a woman's friendship for another woman, there's nothing like killing it with kindness."—Tribune.

CIVIL SERVICE PAY
Under Reclassification, Retroactive to April, 1919.

Ottawa, Dec. 2.—The salary provisions of the new civil service reclassification, so far as they relate to the present service, will likely be made retroactive to April 1st of this year, instead of coming into force only in April, 1920.

The matter has been under consideration by the Government and when asked about it today, Hon. A. C. MacLennan, minister of labor, said: "I think it very probable that this will be done."

WARNED OF BOMBS
Brantford Chief Gets Message
Heralding Outrage.

Brantford, Dec. 2.—Chief Steinhilber received a communication from the International Chiefs' Association to the effect that the Brantford Police Department in the United States were preparing to send out before and during the Christmas holidays, nearly done up packages having the appearance of Christmas gifts, when opened would contain surprise in the form of a high explosive. The packages were intended for the Quebec, and municipal officers who had been unearthed in Philadelphia.

A GIANT PARK
Welland Wants Mountain
From Here to Falls.

St. Catharines, Dec. 2.—The city council has sent a petition to the Government, asking that the old Welland Canal, which has not been used for many years, be sold to the city for park purposes; likewise the "Mountain" or ridge running from Hamilton to the Niagara River, the whole thing to be a continuation of Victoria Park, and the city of St. Catharines to be a part of the park.

This was in answer to an article given by Nelson Cauchon, Constable Victoria Park, who had been advocating that the Grand River be dammed and the water partly diverted to the Niagara River, and the whole thing to be a continuation of Victoria Park, and the city of St. Catharines to be a part of the park.

He advocated the erection of a multitude of ten-acre farms in Niagara district, to be used for intensive farming, which would help solve the unemployment situation.

BEACH PARK
A Lot of Damage
By Storm.

Several linesmen and other workers were straightened out by the result of the recent great storm. The damage done in and around the beach park at the end of Hamilton, where for such a small area, a large number of telephone and power poles were broken off and the wires damaged.

The storm fence recently erected by the Hamilton City to keep back the wind from the beach park, which was in some places completely demolished. Altogether the damage done to the beach park will amount to several hundred dollars.

Omelettes

In preparing a plain omelet (one without the addition of other ingredients or any filling) three eggs should be used for every person; but the number may be materially lessened when the filling is of a substantial character.

Many persons consider that an omelet is one of the hardest things to cook, and it cannot be successfully taken practice to turn it delicately at just the right moment when it is delicately browned on the under side and risen to the limit of puffiness and lightness.

It is rarely easy to undertake to make a large omelet than one composed of four eggs, and for the novice it is well to remember that the omelet or the omelet the easier it is to handle.

When a large quantity is required, two omelets should be made instead of one.

To be sure that your omelet pan is well seasoned, heat it during the preparation (which contains butter), is best when cooked at a low temperature, and the omelet has no objection to the rule. Above all, take plenty of time, and don't hurry the cooking.

For the filling of omelets almost any "left overs" can be used. Meat, poultry, cheese and the fresh green vegetables are excellent. Mushrooms, peas, etc., are excellent, while a few sautéed mushrooms or oysters will turn the omelet into a most elaborate dish.

A good brown or tomato sauce is always good to pour over the finished omelet. The European method is to use the lightest cream that was ever cooked just before the omelet is removed from the fire.

As examples of delicious omelets, the following tested recipes are suggested:

WELSH RABBIT OMELET. This is particularly good for supper or for a light breakfast. For each person, use four eggs. Beat the yolks of the eggs and add two tablespoons of melted butter.

Best the yolks of the eggs and add two tablespoons of melted butter. Beat the yolks of the eggs and add two tablespoons of melted butter.

Our Service

Service agents for more at Christmas than at any other. At no time have you so much to do and so little time in which to do it. With this in mind, we have striven each year to perfect the service we offer, so that each year we could lessen the strain of Christmas shopping.

This year, in spite of adverse conditions, through much hard work and unexcelled buying connections, we are able to offer you a stock complete in every detail from which to make your selections.

Gifts purchased now will be parcelled and laid aside to be delivered at any time you wish.

We prepay charges on anything mailed to any part of Canada.

If you have a gift problem we can help you solve it.

KLEIN & BINKLEY

Diamond Merchants,
Jewellers and Opticians,
Importers of Marriage Licenses,
39-37 James St. North,
Hamilton.

REFUSED OFFER

Barton Will Not Sell to the City.

Barton council, at meeting Monday night, rejected the city's offer of \$750 each for eight lots on the east side of Kentworth avenue, between Mouchison avenue and Dundas street. The lots were set aside for subway purposes, and these were not used. The city offered this price for the property, but the township will retain it.

Road Commissioner W. A. Taylor, at the request of Paul Comptons, Jr., was appointed Barton Fall Commissioner.

In a short letter Mr. Harrington informed the council of a serious coal shortage.

The by-law for the purchase of a new quarry and crushing plant estimated to cost \$5,000, was read for the third time and will be submitted to the council in January.

A by-law amending the present housing commission membership from three to five, was passed.

Word to the effect that new residents of Barton could not expect a tax supply, was received from the department. New residents are discouraged. The letter came in reply to a query as to why gas had been refused a franchise who built a house in the township.

The Fire Committee's recommendation that a \$200 be purchased from A. A. Lee, on which the fire station will be situated, was adopted, and the property purchased.

The next meeting will be held on Wednesday, December 3, when the council will draw up a by-law for \$12,000 for two Memorial halls. This by-law will be submitted in January.

TO TRY ASSASSINS

Special Council in Greece in Venizelos' Case.

Athens, Dec. 2.—A special Council of War has been called, to meet at once, for the purpose of trying the conspirators who recently attempted the assassination of President Venizelos of Greece. Twenty-five arrests have been made. Four of the prisoners are active army officers, and the rest reserve officers. Some have confessed complicity in the plot to kill the Premier, and a number of other suspects have been expelled from the army.

LAND FOR VETERANS

Over 100,000 Acres of H. B. Reserve to S. S. B.

Ottawa, Dec. 2.—Over 100,000 acres of Hudson Bay reserve lands, lying in the three prairie provinces, which have come into the hands of the Dominion Government, are being turned over to the Soldier Settlement Board for settlement by returned soldiers.

These lands were inspected during the past summer. All of them are of good value for farming purposes, and a considerable area is of specially good value.

Use of Sea Weeds.

A good many of us think of seaweeds as perfectly useless ocean growths, somewhat like our garden weeds. As a matter of fact, seaweeds have many uses. They furnish food for the fish, the same as grass and herbage do for our cattle and sheep. And many of the smaller fish build their homes—some like our birds—in the floating island of seaweed. They also keep the water pure, and weed of a certain kind is used so much in demand, as it contained an alkali used in the manufacture of soap, but this is now obtained from other sources.

Sea weeds are used by farmers along the coast for fertilizer, and in the fall it is interesting to see them gathering in, often leaving their trunks far out into the water, the horses plunging back with a load of the gleaming stuff. If you have been in New England you have probably noticed this yourself.

Some of the hardy cattle of Ireland and Scotland thrive on dried seaweed as a winter fodder. There is a species of sea weed that grows along the coast of Japan, from which seaweed is made, and the Chinese use seaweed to glaze their umbrellas, lanterns and screens.

A BIG CUT IN "DOPE" TRAFFIC

New Law Has Reduced It Over 50 Per Cent.

Montreal Imports 96 P. C. of All Taken.

Ottawa, Dec. 2.—Interesting figures supplied by the Department of Public Health regarding the import of harmful drugs for the six months ending March 31, and in the second quarter for the six months ending June 30, 1919.

The figures in the first column following show the imports into Canada for consumption during the fiscal year ending March 31, and in the second column for the six months ending June 30, 1919:

Cocaine, op. 12,233 3,255
Morphine, op. 35,627 9,454
Crude opium, lbs. 24,363 7,223

In this connection an official of the Department of Health points out that the figures included those for June, 1919, when the department had just been taken over from the Board of Commerce, consequently they had no control during that month, as the great majority of the dealers' supplies were already in Canada or on the way to Canada.

A more correct comparison of the enormous reduction is to take the figures for the quarter ending Oct. 30, when the total supply for consumption was 1,100 lbs., as compared with 5,500 lbs. for the corresponding period last year.

That Montreal imports more than 95 per cent. of the whole quantity used in Canada was the statement made by an official, and most of the remaining 5 per cent. was imported by dealers in Quebec. While it is true that these imports supply the remainder of Canada, it is a fact that Montreal holds a quantity altogether out of proportion to its needs. It is known that in that city a headquarters for the illicit distribution of drugs, and that a large percentage is smuggled into the United States. That this practice is profitable to the people in the illicit trade is shown by the fact that morphine valued in Montreal at \$12 per ounce is sold in Chicago at \$60.

A great deal is taken to Windsor and smuggled across the border, and many instances are being brought to light of railway porters carrying a quantity of drugs into the States from Montreal. Very shortly, it is stated, the department will have the whole thing well in hand, and will be able to trace where every ounce of cocaine went to. It is becoming increasingly hard for the illicit dealer, and very shortly the drug will in Canada will be practically eliminated.

FOR HUMANITY

A French Labor Leader Speaks in Montreal.

(Canadian Press Wire.)

Montreal, Dec. 2.—An appeal to the spirit of the community among labor of all races and nationalities, for the sake of humanity, was made by Mr. Leon Jouhaux, secretary of the General Labor Federation of France, before a large gathering, in the Audimax Public Hall, last night. Mr. Jouhaux, who was on his way back from the Washington Labor Conference, was accompanied by a number of officials, and during his stay here was the guest of the Trades and Labor Council.

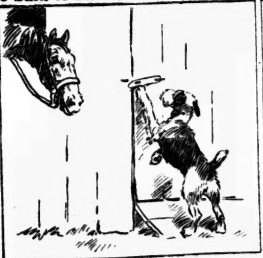

FALL RIVER STRIKE OFF.

Fall River, Mass., Dec. 2.—Cotton mill operatives who struck yesterday for a 20 per cent. increase in wages, returned to work today, having accepted a compromise offer of 12 1/2 per cent. made last night by the manufacturers. The strike in New Bedford, where the operatives had made the same demand, was averted by the acceptance of the offer.

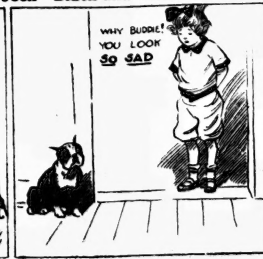

You never can tell. He's the deaf mute raises a racket when he plays tennis.

Thirty Rinses a Minute - and Cleanliness

Just another minute makes a great difference in the time and labor of washing.

Once every art and craft was a close corporation. The methods and processes of each were jealously guarded by industrial guilds and societies.

In Queen Elizabeth's time the practice of starching could only be learned by paying a fee of more than \$100 a lesson.

But modern industry is an open book. It invites confidence.

And so, too, does our laundry. There is nothing about our plant or our methods but what would please you.

In marveling at the snowy lustre of your linens, haven't you often wondered how such perfect cleanliness was obtained?

Thirty rinses a minute in clear soft water and suds of pure white soap is the superior means by which we, in our modern laundry, achieve such results.

We wash separately each class of goods that comes to us in your family bundle. The articles to be laundered

are carefully placed in a roomy washer, which in appearance resembles a bass drum about four times lengthened.

Soft water and creamy suds are added.

The interior of the cylinder is very smooth, with none of the "ripples" of the ancient washboard. In place of these are only a few finely polished ribs attached to the interior walls as a shelf might be fastened to a wall in your home.

As the cylinder slowly revolves and reverses, the clothes are lifted and lowered easily in the soft water and suds, receiving thirty rinses a minute—just as the housewife washes a prized garment by lifting and lowering in a bowl.

Instead of being rubbed out, the dirt is rinsed out by the suds and water as they surge back and forth through the weaves. There is no pulling or straining. And to doubly insure purity and freshness, the water is changed from nine to twelve times while the washing of your clothes is in progress.

Thirty rinses a minute—and cleanliness!

Isn't this a thousand times better than the old way of having your washing done? You send your family bundle to us—and gain relief from the mess and labor of washday. And you win, too, more leisure for pleasanter tasks.

Have your family washing done this better way. Telephone and we will have our driver call.

Send it to the Laundry

FARMER'S DOZEN AT OTHER JOBS

Says Manitoba Grain Growers' Vice-President at Nomination.

NORTH ONTARIO

R. H. Halbert and Neil MacKinnon to Make the Fight.

Beverton, Dec. 2.—Robert Henry Halbert, retired farmer, Cambridge, and Neil D. MacKinnon, miller, Cambridge, were nominated here today to contest in the Federal election of Dec. 9 the constituency of North Ontario, left vacant by the death of Colman Sharpe. Mr. Halbert is running as a candidate for the United Farmers of Ontario, and Mr. MacKinnon as an independent Unionist. No other names were submitted.

Following the nomination, which was held in the Town Hall, the meeting was addressed by Messrs. MacKinnon, Halbert, T. K. Slack, M.P.P., and Neil MacKinnon. Mr. Halbert, who is the present Government, with its record of four years, is a man of experience and of men who may have to purchase experience at their expense. He said he would do all he could to get more money for the soldier, but he was not in favor of the present Government. He was given a hearty reception and was according to the former minister.

Not one thing that Mr. Halbert said about him was true, asserted Mr. Halbert, warmly, referring to charges made by Mr. Best at the former minister's meeting.

"J. J. Morrison and myself are the men who have built up this organization, and by doing so have done as much for the farmers in North Ontario as anyone else has," said Mr. Halbert.

What caused the interest in the country? he asked. The Government had permitted the profiteers to drain the life blood of the country. Why had the Government not conscripted wealth when it conscripted men? He said he would work with any man, regardless of color, race, creed or nationality, to build a Canadian citizenship. He added:

"Mr. K. Slack here testifies as to the character of Mr. Halbert. He has been his neighbor in Durham county for the last twenty years and was a man of splendid parts. Mr. Slack was Clerk of Melancthon township when Mr. Halbert was Councillor."

Mr. John Kennedy told the audience that independent political action was the watchword and the keynote. The light of the day, he said, the latch string hangs out, and the workers of Canada are named therein. He said he had saved Canada must get more men on the land, he asserted. To get men on the land, he said, they must have the great task facing them. He said he had never before any landowner in the country that would improve conditions for agriculture. He turned his back on the tariff, he said, the present method of taxation was not changed it might as well be changed before England becomes a free country in Canada were in the minority. The annual tariff in 1918 was the Canadian dollar to 750 million of dollars, about \$25 a head, and about seven times as much as the United States. Indirect taxation cost the farmer \$300 a year for Federal purposes, and the farmer paid \$10 a year was his argument.

"I make the statement that the man who works land is worth 12 men in any other occupation," he added.

Senator Blain, in his turn to speak, took exception to remarks that business making the profit in the war was the farmer. He said that was untrue and that no legislation to aid the farmer had been introduced for the last 40 years. He cited the business profits of the war and the fact that the farmer had lost his earnings and brought to the Federal treasury over \$6 million of dollars. He said the farmer was exempt from this tax. He also told of legislation giving the rural mail delivery of special help granted them when there was a postal strike. He said that in five years ago, and of credits advanced out of Victoria Loans in Great Britain.

Addressing the soldiers, he said Canada's men were the highest paid except those of Australia, and he outlined the fact that the soldiers had to show that a widow of a soldier with three or four children was worth \$400 a year, while a married man \$400 as a wedding present.

"You have built up this country by the tariff and the agricultural interest together," he said.

OLD LANDMARK

Drill Hall and World's Fair Building Down.

Saturday's wind storm was one of the worst ever experienced around Rockton. Trees were uprooted and broken, telephone poles blown over, barns unroofed and fences blown down. Damage was created generally.

One of the oldest landmarks was razed to the ground. The old drill hall and on the World's Fair grounds, which was erected about fifty-two years ago, and was used for drilling volunteers at the time of the Fenian raid, fell a victim to the blasts of that tremendous gale.

The Plowing Match Society held its annual supper in the township hall on Wednesday evening. The ladies of the Women's Institute furnished the supper.

Everyone was much pleased at the prospect of the new Hydro-Electric Railway coming to the township.

CASE SPRINGSTEAD

Whole Population Out to His Funeral.

The entire populace of Stony Creek and vicinity attended the funeral of the late Constable A. C. Springstead on Wednesday afternoon.

The funeral was held at the home of the deceased, King street, Rev. J. P. Carson, rector of the Anglican Church, conducted the services at the home and grave. Large numbers of people were present.

Mr. Springstead was a well-known and popular man in the township. He was a native of the township and had lived there for many years.

Long before the hour of the last rites he was in the hospital, and his children and grandchildren were thronged by the many who looked their last on the familiar face which was well known in the village in which he had spent the better part of his life as a wagon-maker.

On all sides the deepest regret was expressed at the untimely death of the deceased.

No one was better known in a neighborhood than was the faithful and reliable Constable Springstead, full of sympathy and civility for the unfortunate and weak. The many tributes which were paid to him as an officer were accomplished with a delicacy and tact which was a rare quality.

As an officer he was a man of high character and of high ability. He was a man of high character and of high ability.

He was a man of high character and of high ability. He was a man of high character and of high ability.

He was a man of high character and of high ability. He was a man of high character and of high ability.

He was a man of high character and of high ability. He was a man of high character and of high ability.

He was a man of high character and of high ability. He was a man of high character and of high ability.

He was a man of high character and of high ability. He was a man of high character and of high ability.

He was a man of high character and of high ability. He was a man of high character and of high ability.

He was a man of high character and of high ability. He was a man of high character and of high ability.

He was a man of high character and of high ability. He was a man of high character and of high ability.

He was a man of high character and of high ability. He was a man of high character and of high ability.

He was a man of high character and of high ability. He was a man of high character and of high ability.

He was a man of high character and of high ability. He was a man of high character and of high ability.

He was a man of high character and of high ability. He was a man of high character and of high ability.

He was a man of high character and of high ability. He was a man of high character and of high ability.

He was a man of high character and of high ability. He was a man of high character and of high ability.

He was a man of high character and of high ability. He was a man of high character and of high ability.

He was a man of high character and of high ability. He was a man of high character and of high ability.

He was a man of high character and of high ability. He was a man of high character and of high ability.

CHANGED TYPE OF LIVE STOCK

Shown in Exhibits at Big Chicago Show.

Canadians Expect to "Clean Up" in Sheep.

Chicago, Dec. 2.—Live stock exhibitors at Canadian shows might well take a leaf from the book of their southern neighbors in connection with the preparing of live stock for exhibition.

Although the bulk of the animals showing at the big Chicago stock show here are no better than the average seen at Duluth or Ottawa, a few of the best of the breed have been taken in preparing the beasts for exhibition.

The animals, though many were of type from a breeder's standpoint, fat and well rounded. The males and tails were done up in ribbons and bamboo pins with more care than the ladies take with their hair. As pointed out by one of the exhibitors from Ontario, this "fixing up" would be the deciding factor in a race of two animals.

They were evenly matched in other points.

According to J. C. Criddle, of London, England, judging grade and cross-bred cattle, the Chicago International Cattle Show is a fairer one than any other in the world.

A similar nature held in the country as far as the quality of the stock is concerned, but in his opinion there is "too much common stuff" in the cattle shown here.

"However," explained Mr. Criddle in a short interview, "there are some remarkably good types here also."

Mr. Criddle, who is one of the judges of the Grand Championship yesterday, for instance, is one of the best judges in the world.

Mr. Criddle's opinion also holds true in the case of sheep. He said that the live stock show held at Chicago is a fairer one than any other in the world.

He said that the live stock show held at Chicago is a fairer one than any other in the world.

He said that the live stock show held at Chicago is a fairer one than any other in the world.

WRIGHT'S

THE GERMAN BADGE OF CRUELTY

Florida. His name was Jay Bradley and he lived on a coral key with his wife and two babies. The hunter shot him dead and then killed all the adult birds in the rookery to obtain the snow-white plumage. Perhaps the identical ones that were used to ornament the winter head-dress of the Kaiser's son and also the fashionable hats of many women in this country. Remember the cruel side of the "algerite" story whenever you see the dainty feathers of the warbler the slaughter of the old birds and the starving young ones and remember the name of the hunter who was faithfully guarding the birds in his care, and the very night of the following incident he mentioned to you with loathing.

Although much has been said and very much written about the subject of the egret, it is doubtful whether the public conscience is yet awakened to the wrong and cruelty which has been connected with this traffic. The following incident is mentioned to emphasize this point.

At a motion picture show given recently a series of very beautiful views of the snow herons and egret at home. It is certain that many of you saw those birds. They are beautiful creatures, and they are not to be destroyed, do not know of the devastation they came in the egret rookeries. It is certain that many of you saw those birds. They are beautiful creatures, and they are not to be destroyed, do not know of the devastation they came in the egret rookeries. It is certain that many of you saw those birds. They are beautiful creatures, and they are not to be destroyed, do not know of the devastation they came in the egret rookeries.

The very next film shown on the screen portrayed an egret being shot by an ancient hunter. It was a very strange contrast to the egret in the picture. It was a very strange contrast to the egret in the picture. It was a very strange contrast to the egret in the picture.

Many of the egret birds which are occasionally in Canada, come from the most northern rookeries, where they are less likely to see these birds here now when the most northern rookeries are in North Carolina.

They now breed from North Carolina southward to Chili and Argentina, where they are protected by the United States.

LIBERALS TO
KEEP PARTY
CHEST CLEARDonors to Party Funds Can-
not Touch in Any Way
On Stated Policies.

CENTRE AT OTTAWA

Permanent Executive Liv-
ing Near There to Meet
Frequently.

Ottawa, Dec. 2.—So that no one ascribing to the Liberal party funds was think therefore gave the right to influence the next Dominion Liberal Government, the National Liberal Organization committee decided to hold a meeting, which ended at 10 o'clock tonight, to make it known that no subscription will be asked for or accepted if there are strings to it. Contributions will be accepted from every source, but the declared policy of the National Liberal convention in August was that the party is committed to and members of the committee right declared that everyone contributing to the party funds would do so because he believed in the party programme.

The work of the committee today was simply a continuation of that of yesterday. Finance and organization for the purpose of publishing and distributing literature, and for arranging public meetings to present as clearly and widely as possible the policies and principles of the Liberal party, occupied most of the attention of the committee.

So far as organization is concerned, the National Liberal Organization committee, which is practically the Managing Committee for the Liberal party in Canada, with Hon. W. L. Mackenzie King as chairman, will discuss and keep in touch with all Canada through nine vice-presidents, one for each province, and a National Council of 34, six in each province, named by the Liberal Premier or leader of the Opposition in each province, and the five others by the Provincial Liberal Association or the Provincial Liberal Association executive. The organizing committee has appointed a permanent executive committee, with members living within reach of Ottawa, and this committee will get together monthly, or even fortnightly at times, to supervise the central office and the national organizer to be known as general secretary.

The first work of this permanent executive will be to appoint the general secretary, and they state that it is the intention to choose the best executive available for the work. The permanent executive has been formed out of the National Liberal Organization committee, and the personnel is being developed, as the executive is given power to add to its numbers. A sub-committee of this permanent committee will be a finance committee, to receive subscriptions from the provincial committee and see that all records and audits are kept.

The committee members claim that the Liberal party funds can be kept up in the future only by those believing

in government in accordance with Liberal ideas. Because the inflexible determination to keep to policies announced last August would make it impossible for special interests or privileged groups to attempt to modify action by contributions now.

These funds will not be used for campaign purposes. They are entirely for the purpose of presenting Liberalism as the gospel of industrial, political and social freedom, and Hon. W. L. Mackenzie King, when questioned to-night by our correspondent as to what the Liberal funds would be used for.

We think that now, more than ever before, there is need of progressive Liberalism, broad enough to unite and harmonize what is best in the demands of the various elements of our population and stand and fight on.

The Liberal party is big enough and advanced enough for all progressive elements of the population to stand and fight on.

It had been decided that Hon. W. L. Mackenzie King will deliver a few addresses in the eastern cities shortly, and if the next session of Parliament does not begin too early in 1920 he will also speak in the principal western cities.

The head office of the Liberal party will combine the virtual force used for the National Liberal convention and the new Liberal Information office. The general secretary will be in close touch with the leader of the Opposition, when he believes of all details of party organization and management, so that the latter can give most of his time to the various problems of government and the Parliamentary session. The office, Mr. King says, will be a permanent clearing house and centre of progressive Liberalism.

THE WEEK.

Duns Reviles.—A return to unrestrained productive effort, so much needed to remedy the prevailing shortage of goods and to halt the rising tendencies of prices, has been further delayed by continuance of the bituminous coal mining controversy, and by other disputes that still impede the free process of output and distribution of commodities. Some banks, however, apparently exist for the belief that at least a lull in the country's labor troubles may before long be witnessed. Given more stable industrial conditions, however, stimulated and even now, with all the obstacles that are being encountered, there is considerable activity in many directions.

Consist the season of storms and cold weather approaching, and with the coal mining controversy continuing a hampering factor, the prospect of an early appreciable recovery in iron and steel prices does not seem so probable. The strike within the steel industry itself, while decreasing in extent, is still continuing, and is likely to result in a further limited output, and diminishing stocks of fuel threaten to further hamper the steel industry. The growing shortages of iron and steel supplies are likely to become more common. Yet leading manufacturing interests are said to be endeavoring to hold prices in check, and not all of the business offered is being accepted. The earlier tendencies noted in some cotton goods prices last week were replaced this week by a hesitation of previous high quotations on certain leading lines that had experienced yielding.

Most of the reports reaching price

any market, left of unusually prompt reductions, but in the opening of goods for fall, 1920, a decided tendency toward shortening of credit is apparent.

Absence of conspicuous activity in line and leather business has continued through still another week, and conditions seem to be steadily working to the advantage of buyers. The latter, while holding off, have seen grave turns in their favor, sellers no longer dominating the markets, and more frequently the opinion being voiced that shoe prices must sooner or later undergo readjustment. Throughout hide, leather and footwear lines, there is more of the spirit of conservatism manifest.

WEST FLAMBORO

After many weeks of great suffering, Mrs. Albert Ross passed away on Monday morning. The funeral, which was largely attended, took place on Wednesday, at Ballou's Corners. She leaves her husband, a daughter, Miss Gladys, at home, and a son, William, in Dundas. The bereaved family have the sympathy of the community. Mrs. Newcombe and Mrs. Albert Ross, who in Toronto last week attended the funeral of the late Mr. John Jackson, Mr. Jackson at one time lived on the bustling busy street in West Flamboro village.

Mr. and Mrs. Hyslop, son, and Mr. Andrew Hyslop, have left for Port Hope. Mr. Stanley Thibault is visiting friends in Ann Arbor, Michigan. Rev. J. C. Kitch of Dundas, preached an excellent sermon to the Masonic brethren of Inverness Lodge, A. F. & M. in the Presbyterian Church, Christ's Corner, Thornhill.

Manufacturers' dinner was held on Thursday evening in the Township Hall, Ballou's Corners, under the auspices of the Women's Institute. There was a good attendance and a very enjoyable evening was spent. During the evening an honor flag was presented, upon which were two crests, the township having gone over its objective in the Victory Loan. The presentation was made by Mr. Townsend of Dundas, after which Mr. Gray, Reeve of West Flamboro, made a few remarks.

BETHESDA.

Mrs. G. S. Bristol, who has been visiting friends in Hamilton, has returned to her home.

Mrs. Corbett went to Toronto last week to see her mother, who was very weak.

Mr. Codrington's mother is somewhat better.

Mrs. Orton Vansickle is able to be around again.

Mr. Henry Brown had the misfortune to get his hand badly cut in his cutting box.

The wind made bad havoc here by uprooting trees, blowing fences down and mangling barns.

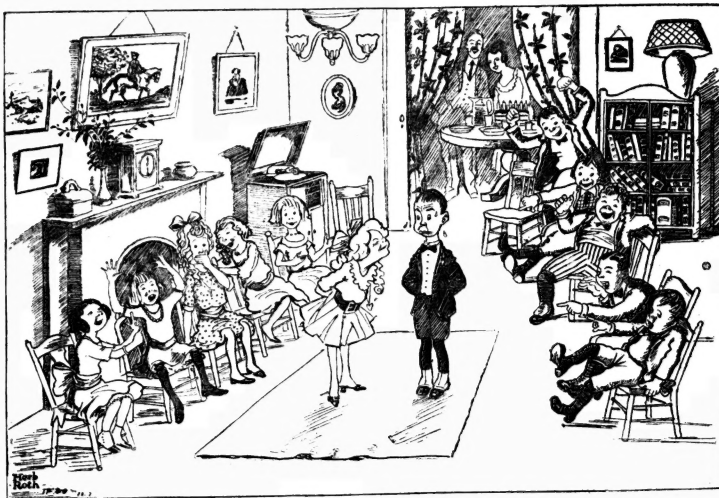

From here of Mrs. Doehlaider, who died at the home of her son, Bernie, in Hamilton, attended her funeral last Thursday. After a short service, conducted by Rev. Mr. Culp, the remains were taken by train to Dundas and laid away in the cemetery by the church he attended when young. Mrs. Doehlaider was 73 years old and a good Christian. She leaves an aged husband, one son, Alvin, a daughter, Mrs. E. A. Brown, two brothers, Mr. Kilian Rittenborn and Mr. Tillman Rittenborn, and one grandson, Harold Doehlaider.

Curiously, it is the kernel of forbidden fruit which still sticks in the throat, sometimes to the danger of a man's choking—Palmer.

THE SNEEZY LETTERS

By DR. E. D. ANGELL

X---GIGGLE-GIGGLE

Dear Sneezy.—The box of appeals that you told me about in your letter came yesterday and I was afraid it wasn't coming at all because I got your letter last Monday and Tubby and me went down to the express office every day and it wasn't there and we thought maybe it was lost or maybe he all the appeals was spoiled or something and we are much obliged for the appeals and they come last night. It was very kind of your mother to send them to us mother says the appeals is very expensive now and the high cost of living is something awful mother says and they cost some of them five cents a piece and the little ones two for five cents and its only them with wormy holes or something that you can get three for five cents and your appeals were almost as good as the five cents a piece kind and your father says that when he was a boy and lived in the country there was so many appeals that they spoiled on the ground and even would be fed to pigs. We appreciate appeals so much here in the city and forty one appeals don't go very far you no how and I wouldn't want to hint or nothing to our appetites is Sneezy and I wouldn't want to hint or nothing to your mother but if there is any appeals spoiling on the ground I wish you would send us some more if your mother wouldn't mind that. Aida sister, Mrs. E. A. Brown, two brothers, Mr. Kilian Rittenborn and Mr. Tillman Rittenborn, and one grandson, Harold Doehlaider.

Curiously, it is the kernel of forbidden fruit which still sticks in the throat, sometimes to the danger of a man's choking—Palmer.

good. There was sandwiches and lemonaid and four kinds of cake and three kinds of ice cream chocolate, strawberry and vanilla and her mother didn't seem to bother about our stomachs the way some mothers does and they was even some ice cream left after we got through. We played games and Beckys uncle who is visiting her and who has been all over the world and new york teased us a funny game and you'd have laffed yourself sick if you'd seen it it called Giggle Giggle and all the girls was on one side of the room and then a boy and a girl would walk out in the middle with their hands behind their back and the one that would giggle first could teen points first best its awful hard to walk right out and look at a girl and keep your face strato Beckys looks so funny anyway that none of us could help giggling just to look at her and Mary Byrnes to. Mrs. Watson wanted to know which boy would walk home with Mermal be cause she lives over half a mile away and none of us guys wanted to go home with any girl but Wilbur did aint he the boob.

Good by for this time.

Your friend yours truly

DIOX.

P. S.—Mother seen my letter and said it wasn't nice for me to hint about more appeals when your mother was as nice to send us forty one in a box as you modest send any bowl of appeals but I hope you wont let them rot on the ground sneezing for the pigs cause there are just lots of people in the city just starving for appeals more than pigs.

MARKETS AND FINANCE

COAL SHORTAGE MAKES TROUBLE

Shipping Curtailed and Industry Crippled.

Wall Streets Predicts Advance in Stocks.

(Compiled by J. G. Beatty & Co. 17 York St., Exchange.)

New York, Dec. 2.—While the market situation is slowly improving, it is by means approaching a point where unlimited speculation may be expected. The latter grade industrial stocks are a purchase on speculation for the time, but we do not expect an uninterrupted advance. There was a good time in the last half-hour yesterday, and many of the latter part displayed strength, the steel industry especially reflecting the good time in the market, with a good deal of vigor at 1:30. Common, after yielding to 100, advanced about a point, and similar values were noted in other lines. The market was strong in the final trading. The tone was irregular.

THE GRAINS

Chicago, Dec. 2.—Light receipts due to restricted transportation facilities created competitive buyers for the grain, the market closed higher with a substantial gain. Owing to abnormal conditions made at the present time. Lack of transportation facilities for coal and grain, and the fact that the grain market is in a state of uncertainty, has caused a sharp rise in the price of grain. The market is expected to remain strong in the final trading. The tone was irregular.

SUMMARY

Speculation opinion continued after close of market. The market was strong in the final trading. The tone was irregular.

ALY WARSHIPS GUARD SPALATA

(A. P. Special Cable.)

Copenhagen, Dec. 2.—A number of Allied warships were cruising off Spalata, according to a Lathrop dispatch received here.

U. S. FREIGHTER HITS A MINE

(A. P. Special Cable.)

London, Dec. 2.—The American freight steamer Kerwood, from New York for Hamburg, has struck a mine off the coast of Scotland, and is now in the North Sea. Tugs are proceeding to the assistance of the ship.

CALGARY FOLK FACE FREEZE-UP

(Canadian Press Wire.)

Calgary, Alta., Dec. 2.—Calgary citizens face a serious situation with continuing bitter cold, gas pressure down to six pounds, and no coal stocks in the city. The condition is expected to continue for some time. One or two days more of such bitter cold will find the citizens without either coal or gas. It is feared.

VATICAN WORRIED

Rome, Dec. 2.—Anxiety is felt by the Vatican relative to the situation in Mexico, especially regarding ecclesiastical matters. The situation is expected to continue for some time. One or two days more of such bitter cold will find the citizens without either coal or gas. It is feared.

Fears Mexican Unrest May Hurt Church.

Rome, Dec. 2.—Anxiety is felt by the Vatican relative to the situation in Mexico, especially regarding ecclesiastical matters. The situation is expected to continue for some time. One or two days more of such bitter cold will find the citizens without either coal or gas. It is feared.
